<b>Office Action Summary</b>	<b>Application No.</b> 10/820,763	<b>Applicant(s)</b> LIN, HUNG-JUI	
	<b>Examiner</b> Terence Boes	<b>Art Unit</b> 3682	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE \_\_\_\_ MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered. Specifically, Taiwan Patent 476,437 listed Description of Related Art.

### ***Claim Objections***

2. Claims 1 is objected to because of the following informalities:
- The recitation "...bent at one direction..." is awkward. The examiner suggests --bent in one direction--.
  - The recitation "...a elastic sheet..." appears to be a typo of --an elastic sheet.
  - The recitation "...a elastic arm..." appears to be a typo of --an elastic arm--.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3682

3. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation "...a pressing sheet..." in claim 2, lines 1-2 renders the claim indefinite as a pressing sheet has already been recited in claim 1. It is indefinite whether applicant is referring to the pressing sheet in claim 1, or to another pressing sheet.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Su et al. (US 2003/0012118).

Su et al. disclose:

- A sheet body (30) bent at one direction disposed at the top end of a elastic sheet (25) and used to prop against the rear side of a teeth plate (27) of said main body
- A pressing sheet (see upper right portion of 30) at the top end of said elastic sheet being disposed at one side of the top end of said sheet body for being propped against the top end of a elastic arm (see protruding arms extending through holes in fig. 4, examiner notes that said sheet

body is also capable of being propped against elastic arm) of said main body.

Re clm 2

- A pressing sheet (see upper left portion of 30) is disposed at another side of the top end of said sheet body for being propped against the top end of another elastic arm of the said main body.

Re clm 3

- Wherein a hole (see hole containing 28) for being engaged with a screw (28) is disposed at the top end of said elastic sheet.

5. Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by (Taiwan Patent 476,437).

See applicants admitted prior art; Figures 4 and 5 and related art section of the instant application.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 6,683,841 discloses a similar apparatus.
